

Prathamesh Bharade

AI/ML Developer | Age: 22

9322228426 | prathambharade@gmail.com | Portfolio | GitHub | LinkedIn

CAREER OBJECTIVE

Detail-oriented and versatile developer with a strong foundation in Python, backend development, and AI/ML, with a growing focus on Generative AI engineering, prompt design, and building intelligent AI systems that solve real-world problems. Currently pursuing MCA (2025–2027) and seeking an AI/ML Role to apply and further develop these skills in a production environment.

TECHNICAL SKILLS

Languages: Python, Java, C, C++, JavaScript
AI/ML & Generative AI: Machine Learning, Generative AI, RAG, Prompt Engineering,
Frontend: HTML, CSS, JavaScript, React.js
Backend: Python, Node.js, Express.js,
Database: MySQL, MongoDB
Core Concepts: OOP, Data Structures, REST APIs, CRUD Operations
Tools: Git, GitHub, Postman, VS Code
Currently Exploring: Docker, Vector Databases,

PROJECTS

Training & Placement Cell

Developed a web-based Training & Placement Cell application to streamline campus placement activities. The system provides separate login portals for Training & Placement Officers (TPOs) and students, enabling efficient management of student profiles, placement drives, job notifications, and recruitment-related information through a centralized platform.

Role: Full Stack Developer
Technologies: Node.js, Express.js, JavaScript, HTML5, CSS3, MySQL
Key Features:

- Role-Based Authentication
- Student Profile Management
- Placement Drive Management
- Real-Time Job Updates
- Centralized Data Management

AI Voice Assistant

Developed an AI-powered voice assistant that enables users to interact with an intelligent system through natural voice conversations. The application integrates speech recognition, voice activity detection, LLM-based reasoning, and text-to-speech to provide real-time conversational responses.

Role: AI/ML Developer & Full Stack Developer
Technologies: Python, React, TypeScript, Groq Whisper Large v3 Turbo, LLMs, Text-to-Speech, Custom Streaming RMS VAD
Key Features:

- Real-Time Voice Interaction
- Speech-to-Text Processing
- Custom Streaming Voice Activity Detection
- LLM-Based Response Generation
- Text-to-Speech Voice Output
- Low-Latency Streaming Pipeline

Attendance Management System

Developed an Attendance Management System to digitalize the traditional attendance process and reduce manual errors. The application enables lecture-wise and subject-wise attendance tracking while providing a centralized platform for students, teachers, and administrators.

Role: Backend Integration Support & Frontend Developer
Technologies: HTML5, CSS3, JavaScript, PHP, MySQL
Key Features:

- Lecture-Wise Attendance
- Subject-Wise Records
- One-to-One Interaction
- Attendance Report Generation
- SQL Database Integration

EDUCATION

- MCA – Abasaheb Garware College (2025–2027)
- B.Sc – Abasaheb Garware College (2022–2025)
- HSC – Dnyanbhakti Junior College (2020–2022)
- SSC – Shree Nageshwer High School (2019–2020)

EXPERIENCE

Fresher

SOFT SKILLS

- Effective Communication
- Team Collaboration
- Adaptability & Quick Learning
- Problem Solving

LANGUAGES

- English
- Marathi
- Hindi
